Lyrics, Elle Benét

Elevation baby

Take me higher

Elevation baby

Natural spiritual fire

When they try to bring me down they only raise me up

They can call it what they want but it but sure ain't luck

Verse

I'm the real mc

Ye ye ye that's me

When i roll up through yo city you'll be asking who's she

But its not who i am

It's what i've become

Imagine minaj beyond beyonce

Rolled into one

And who can blame me

"Yeah i know i'm somethin else"

And who can blame me

"For feelin' myself

gottem twisted

They Think i'm the wifey type

But I'm from Philly you know

I'll make you contemplate life

Chorus:

Elevation baby

Take me higher
Elevation baby
Natural spiritual fire
When they try to bring me down they only raise me up
They can call it what they want but it but sure ain't luck

Ellevation baby I'm just breezin through livin'
Eyes wide open babe now i'm the storm and i'm winnin'
No holdin back cause there's no end to my limits
Livin life how i love it —if you with me, let's get it

VERSE:

No fake bitches in my corner
All I rock with are gems
thunder cats breathin fire
Makin haters wanna swim

They were there when I was fallin
Time & time again
Picked me up raised me higher
Said "we in it to win"

Alright i'm back
Got my mind right I'm back in the game
You may have left me for ruins
And mentally I'm not the same

But for real it's all good though
Despite all the pain
I died once but i lived no
kryptonite to my gain

Chorus:

Elevation baby
Take me higher
Elevation baby
Natural spiritual fire
When they try to bring me down they only raise me up
They can call it what they want but it but sure ain't luck

Elevation baby I'm just breezin through livin'
Eyes wide open babe now i'm the storm and i'm winnin'
No holdin back cause there's no end to my limits
Livin life how i love it --you with me? Let's get it

Elevation baby
Take me higher
Elevation baby
Natural spiritual fire
When they try to bring me down they only raise me up
They can call it what they want but it but sure ain't luck

Verse

Today you're gonna see a new side of me

From the one that's been trapped

fucked up and

held back

Gone is that girl forever

She's a casualty of war

better version arrived

weak one don't live here no more

so here I am please take a look at me now

And no i couldn't have done it

if i threw in the towel

i chose life over easy

I chose life over quit
I'm not sayin it was breezy
Just i got too much to get

Chorus

Ellevation baby
Take me higher
Ellevation baby
Natural spiritual fire
When they try to bring me down they only raise me up
They can call it what they want but it but sure ain't luck

Ellevation baby I'm just breezin through livin'
Eyes wide open babe now i'm the storm and i'm winnin'
No holdin back cause there's no end to my limits
Livin life how i love it --you with me? Let's get it
